Virtual Earth University	dcfa7d3d	Summer 2026–27
RECORD PERIOD	**COURSES IN SCOPE**	**DATA SNAPSHOT**
24 May 2027 – 12 Sep 2027	4 courses · 1 term	13 Oct 2026

69
REFLECTIONS
one-sentence summaries and muddiest points written by the learner

35
ACTIVITIES
distinct learning activities in the learner's course weeks

40
SKILLS
distinct skills declared by the course syllabi

10
CREDENTIALS
distinct micro-credential pathways named by the syllabi

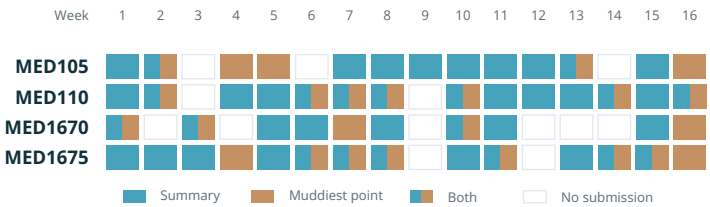

1 Courses enrolled this term

Courses the learner was enrolled in on CoursedUp, grouped by term. **Weeks with a reflection** counts the course weeks in which the learner submitted a one-sentence summary or a muddiest point.

Code	Course	Instructor	Weeks w/ reflection
MED105	**Histology**	Anne Robinson	13 / 16
MED110	**Pharmacology I**	David Caldwell	14 / 16
MED1670	**Medical Simulation**	James Torres	10 / 16
MED1675	**Pathology II**	Anne Robinson	14 / 16

2 Weekly reflection map

Each cell is one published course week. A cell is filled when the learner submitted a reflection that week: teal = one-sentence summary, amber = muddiest point, both colours = both. Empty cells are weeks without a submission — silence on the platform, not absence from class. Weeks in which the course published no post are left blank.

3 Activities recorded in the learner's course weeks

On CoursedUp each weekly course post carries the activities the instructor used that week, chosen from the platform's activity catalogue (Basic / Advanced / Innovative is the catalogue's own classification of the activity; T / E / A marks its role as teaching, engagement or assessment). The table lists **learning activities**: things the learner does, makes, discusses, analyses or presents, or meets outside experts and real settings through. Course documents such as the syllabus, lecture formats, platform tools, grading arrangements and standard exams or quizzes are part of the course record too, but are not listed. **Count** is the number of the learner's 64 course weeks in which the instructor recorded that activity. Attendance is not recorded by the platform.

35 distinct learning activities across 99 activity records · the 14 most frequent listed below

Activity	Role	Level	Count
Case Study	T/E/A	Advanced	13
Lab Sessions	T/E	Advanced	12
Real-World Cases	T/E/A	Basic, Advanced	9
Think-Pair-Share	E/A	Advanced, Innovative	6
Group Discussions	T/E	Advanced	6
Collaborative Study Sessions	T/E	Innovative	5
Simulations	T/E/A	Advanced	5
Debate/Discussion Sessions	T/E/A	Advanced	3
Discussion Forums	T/E/A	Advanced	3
Group Exercises	T/E/A	Advanced	3
Seminars	T/E	Basic, Advanced	3
Article Analysis	T/E/A	Basic, Advanced	2
Clinical Worksheets	T/E	Advanced	2
Peer Learning	T/E	Advanced	2

Showing the 14 most frequent learning activities; 21 further learning activities were recorded less often. 25 further recorded items (course documents, lecture formats, tools, grading arrangements, standard exams and quizzes) are not listed.

4 Skills declared in the course syllabi

Each syllabus lists the skills its course targets. This section reproduces those *declarations* across the learner's courses, with the courses that declare each skill. It describes what the courses set out to teach; it does not assess whether a skill was acquired.

40 distinct skills from 40 syllabus entries · 25 hard, 8 soft, 7 meta

A. Technical and domain skills (Hard Skills)

Skill (as declared)	Courses
Clinical Pharmacology Application	MED110
Cardiopulmonary Pathology Diagnosis	MED1675
Cardiovascular and Urinary Architecture Evaluation	MED105
Disease Mechanism Interpretation	MED1675
Gastrointestinal Tract Histological Assessment	MED105
Gastrointestinal and Endocrine Assessment	MED1675
Histopathological Analysis	MED1675
Oncological Staging and Classification	MED1675
Procedural Simulation & Technical Accuracy	MED1670
Endocrine Gland and Special Senses Evaluation	MED105

15 further hard skills are declared in single courses; ordering: number of courses that declare the skill.

B. Interpersonal, communication and leadership skills (Soft Skills)

Skill (as declared)	Courses
Collaborative Case Discussion	MED110
Collaborative Microscopy Lab Work	MED105
Critical Inquiry and Problem Solving	MED110
Clinical Communication and Reasoning	MED1675
Collaborative Case Problem Solving	MED1675
Team Coordination & Role Allocation	MED1670
Closed-Loop Communication	MED1670
Crisis Resource Management	MED1670

C. Thinking and self-regulation skills (Meta-Skills)

Skill (as declared)	Courses
Lifelong Learning in Therapeutics	MED110
Clinical Diagnostic Reasoning	MED105
Integrative Systems Synthesis	MED1675
Self-Directed Diagnostic Learning	MED1675
Clinical Reasoning Under Uncertainty	MED1670
Ethical and Professional Decision-Making	MED1670
Debriefing & Peer Critique	MED1670

5 Micro-credential pathways named in the course syllabi

Course syllabi on CoursedUp name the micro-credential pathways their weekly topics are aligned with. The table reproduces those declarations for the learner's courses and shows, for the aligned weeks, how many carry a reflection by the learner. No credential is awarded or verified by this record; whether a pathway leads to a credential is decided by the awarding body, not by the platform.

10 distinct pathways named across 4 courses

Pathway (as declared)	Course	Weeks w/ reflection	Depth	Dimensions named
Clinical Histopathology Specialist	MED105	13 / 16	Proficiency	Application
Organ Systems Micro-Anatomy Analyst	MED105	7 / 8	Mastery	Integration
Clinical Systemic Pharmacology Practitioner	MED110	9 / 10	Mastery	Application
Foundational Therapeutics Specialist	MED110	4 / 5	Proficiency	Foundational Knowledge
Advanced Medical Procedural and Crisis Manager	MED1670	4 / 7	Mastery	Integration, Application
Simulation-Based Clinical Safety Specialist	MED1670	3 / 5	Proficiency	Foundational Knowledge, Application
Clinical Simulation Educator and Debriefing Leader	MED1670	1 / 2	Proficiency	Human Dimension, Learning How to Learn
Advanced Clinical Pathology Analyst	MED1675	7 / 7	Proficiency	Foundational Knowledge, Application, Integration
Organ Systems Pathophysiology Specialist	MED1675	4 / 6	Mastery	Application, Integration, Human Dimension
Diagnostic Clinical Reasoning Professional	MED1675	3 / 3	Proficiency	Integration, Learning How to Learn, Caring

6 The learner's reflections

Everything in this section was written by the learner on the platform and is quoted verbatim. Across the record period the learner submitted 44 one-sentence summaries, 25 muddiest points and 3 post comments, and marked 44 weekly posts as liked. Selection rule: for

each course, the longest summary and the longest muddiest point (earliest week on a tie). Length is a transparent proxy for elaboration, not a quality judgement.

MED105 · Histology Summer 2026–27

Summary · W13· Respiratory System & Urinary System

"Type I pneumocytes provide the thin surface required for efficient gas exchange while type II pneumocytes synthesize surfactant to prevent alveolar collapse."

Muddiest point · W4· Specialized Connective Tissues: Cartilage and Bone

"The step from osteoblast secretion to the formation of mature mineralized osteoid in lamellar bone still feels unclear to me. I struggle with the calcification timing."

MED110 · Pharmacology I Summer 2026–27

Summary · W10· Central Nervous System (CNS) Pharmacology II: Antidepressants, Antipsychotics, Opioid Analgesics

"Antidepressants and antipsychotics restore neurochemical balance by altering synaptic monoamine levels, though clinical efficacy often lags behind molecular action."

Muddiest point · W8· Central Nervous System (CNS) Pharmacology I: Sedative-Hypnotics, Anxiolytics, and Antiepileptics

"The distinction between partial and full agonist binding affinities within specific GABA A receptor subtypes remains unclear to me when assessing overdose risk."

MED1670 · Medical Simulation Summer 2026–27

Summary · W8· Assessment of procedural competence and technical accuracy

"Technical accuracy requires the consistent integration of safety protocols and sterile sequencing to ensure the procedure is performed with professional rigour."

Muddiest point · W16· Final Exam

"The concept of integrated performance is still shaky in my mind because it is difficult to determine how much weight the rubric gives to composure versus clinical accuracy."

MED1675 · Pathology II Summer 2026–27

Summary · W2· Cellular Injury, Adaptation, and Death in Clinical Context

"Cellular injury triggers a specific molecular cascade where the transition from reversible membrane damage to irreversible necrosis defines the clinical outcome."

Muddiest point · W11· Cardiovascular Pathology II: Valvular Disease, Endocarditis, and Congenital Abnormalities

"The hemodynamic boundary between a clinically silent stenotic valve and one causing symptomatic ventricular overload remains shaky when I interpret clinical findings."

About this record

What it is. A summary of this learner's activity on the CoursedUp platform, generated automatically on 13 Oct 2026 from a platform data snapshot dated 13 Oct 2026. Every number is a count over platform records; every quotation is the learner's own text, unedited. No generative AI was used to produce any part of it, and no person reviewed it.

What it is not. It is not a transcript, a diploma supplement or a certificate. It contains no grades or credits, and it does not verify, certify or attest that any skill, competency or credential was attained. Sections 4 and 5 reproduce what course syllabi declare about the *design* of the courses; they say nothing about the learner's mastery. Section 3 reproduces the activities instructors recorded for their weekly posts; attendance is not tracked.

Definitions. *Weeks with a reflection*: course weeks in which the learner submitted a one-sentence summary or a muddiest point (51 of 64); comments and likes are not counted. *Reflections*: the learner's one-sentence summaries and muddiest points added together. *Learning activities*: catalogue activities in which the learner does, makes, discusses, analyses or presents something, or meets outside experts and real settings; course documents, lecture formats, platform tools, grading arrangements and standard exams or quizzes are excluded, by one classification of the platform's activity catalogue applied identically to every record. *Distinct*: counted once however many courses declare it, after normalising spelling (case, hyphens, "&"); no synonyms are merged.

Questions. About the content of a course: its instructor. About this record or the underlying data: CoursedUp support. The learner can request the full list of their submissions at any time.
