LEARNING ACTIVITY RECORD · GENERATED FROM COURSEDUP PLATFORM DATA

TERM REPORT · FALL 2026–27

Learning Analytics for Student

Freya Larsen

PROGRAMME	DEPARTMENT	SCHOOL
Biology	Biology	Life Sciences
UNIVERSITY	**LEARNER ID**	**REPORTING SCOPE**
Virtual Earth University	121ca378	Fall 2026–27
RECORD PERIOD	**COURSES IN SCOPE**	**DATA SNAPSHOT**
21 Sep 2026 – 10 Jan 2027	5 courses · 1 term	13 Oct 2026

72 **REFLECTIONS** — one-sentence summaries and muddiest points written by the learner

52 **ACTIVITIES** — distinct learning activities in the learner's course weeks

37 **SKILLS** — distinct skills declared by the course syllabi

11 **CREDENTIALS** — distinct micro-credential pathways named by the syllabi

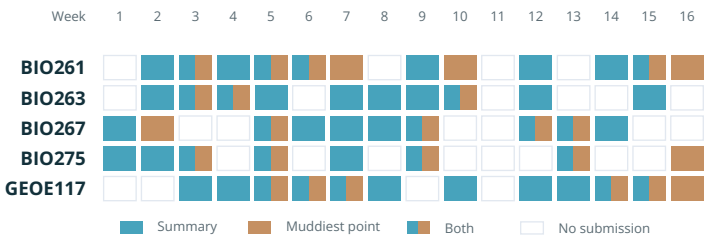

1 Courses enrolled this term

Courses the learner was enrolled in on CoursedUp, grouped by term. **Weeks with a reflection** counts the course weeks in which the learner submitted a one-sentence summary or a muddiest point.

Code	Course	Instructor	Weeks w/ reflection
BIO261	**Advanced Microbiology**	Nicholas Arnold	12 / 16
BIO263	**Animal Behavior**	Sarah Foster	10 / 16
BIO267	**Developmental Biology**	Sharon Patterson	10 / 16
BIO275	**Genetics of Human Disease**	Samuel Perry	8 / 16
GEOE117	**Biostatistics**	Samuel Perry	12 / 16

2 Weekly reflection map

Each cell is one published course week. A cell is filled when the learner submitted a reflection that week: teal = one-sentence summary, amber = muddiest point, both colours = both. Empty cells are weeks without a submission — silence on the platform, not absence from class. Weeks in which the course published no post are left blank.

3 Activities recorded in the learner's course weeks

On CoursedUp each weekly course post carries the activities the instructor used that week, chosen from the platform's activity catalogue (Basic / Advanced / Innovative is the catalogue's own classification of the activity; T / E / A marks its role as teaching, engagement or assessment). The table lists **learning activities**: things the learner does, makes, discusses, analyses or presents, or meets outside experts and real settings through. Course documents such as the syllabus, lecture formats, platform tools, grading arrangements and standard exams or quizzes are part of the course record too, but are not listed. **Count** is the number of the learner's 80 course weeks in which the instructor recorded that activity. Attendance is not recorded by the platform.

52 distinct learning activities across 131 activity records · the 14 most frequent listed below

Activity	Role	Level	Count
Lab Sessions	T/E	Advanced	9
Case Study	T/E/A	Advanced	8
Collaborative Study Sessions	T/E	Innovative	8
Real-World Cases	T/E/A	Basic, Advanced	6
Article Analysis	T/E/A	Basic, Advanced	6
Invited Speakers	T/E	Advanced, Innovative	5
Think-Pair-Share	E/A	Advanced, Innovative	5
Debate/Discussion Sessions	T/E/A	Advanced	5
Discussion Forums	T/E/A	Advanced	5
Research Report	T/E/A	Basic, Advanced	5
Seminars	T/E	Basic, Advanced	5
Concept Maps	T/E/A	Basic, Advanced	4
Flipped Learning	T/E/A	Advanced, Innovative	3
Open Discussions	T/E	Advanced	3

Showing the 14 most frequent learning activities; 38 further learning activities were recorded less often. 26 further recorded items (course documents, lecture formats, tools, grading arrangements, standard exams and quizzes) are not listed.

4 Skills declared in the course syllabi

Each syllabus lists the skills its course targets. This section reproduces those *declarations* across the learner's courses, with the courses that declare each skill. It describes what the courses set out to teach; it does not assess whether a skill was acquired.

37 distinct skills from 39 syllabus entries · 20 hard, 9 soft, 8 meta

A. Technical and domain skills (Hard Skills)

Skill (as declared)	Courses
Mechanistic Reasoning	BIO267
Experimental Data Interpretation	BIO267
Hypothesis Testing & Effect Size Interpretation	GEOE117
Metabolic Pathway Interpretation	BIO261
Survival Analysis & Cox PH Model	GEOE117
Clinical Case Synthesis	BIO275
Variant Interpretation	BIO275
Behavioral Observation	BIO263
GLM Diagnostics	GEOE117
Bioinformatic Data Analysis	BIO261

10 further hard skills are declared in single courses; ordering: number of courses that declare the skill.

B. Interpersonal, communication and leadership skills (Soft Skills)

Skill (as declared)	Courses
Scientific Communication	BIO263, BIO267, BIO275
Critical Thinking & Research Critique	GEOE117
Project Consultation & Peer Collaboration	GEOE117
Collaborative Problem Solving	BIO267
Scientific Literature Synthesis	BIO261
Critical Literature Review	BIO275
Collaborative Research	BIO263
Ethical Reasoning	BIO275
Risk Communication	BIO261

C. Thinking and self-regulation skills (Meta-Skills)

Skill (as declared)	Courses
Critical Thinking	BIO263
Critical Inquiry	BIO267
Capstone Synthesis & Lifelong Learning	GEOE117
Evidence-Based Decision Making	BIO261
Integrative Problem Solving	BIO275
Systems Thinking	BIO261
Ethical Scientific Practice & Data Privacy	GEOE117
Research Design	BIO275

5 Micro-credential pathways named in the course syllabi

Course syllabi on CoursedUp name the micro-credential pathways their weekly topics are aligned with. The table reproduces those declarations for the learner's courses and shows, for the aligned weeks, how many carry a reflection by the learner. No credential is awarded or verified by this record; whether a pathway leads to a credential is decided by the awarding body, not by the platform.

11 distinct pathways named across 5 courses

Pathway (as declared)	Course	Weeks w/ reflection	Depth	Dimensions named
Public Health Microbiology Strategist	BIO261	2 / 3	Mastery	Integration
Applied Microbial Genomics Specialist	BIO261	2 / 2	Proficiency	Application
Behavioral Ecology Analyst	BIO263	2 / 3	Mastery	Integration
Ethological Research Practitioner	BIO263	1 / 2	Proficiency	Application
Developmental Mechanisms Specialist	BIO267	4 / 6	Mastery	Integration
Regenerative Biology Practitioner	BIO267	2 / 2	Proficiency	Application
Clinical Genomics Analyst	BIO275	2 / 5	Proficiency	Application
Bioethics in Translational Medicine	BIO275	1 / 2	Awareness	Human Dimension
Advanced Biostatistical Modeling Specialist	GEOE117	3 / 5	Proficiency	Foundational Knowledge, Application
Omics and Bayesian Data Analyst	GEOE117	2 / 3	Mastery	Application, Integration
Ethical and Reproducible Research Practitioner	GEOE117	2 / 2	Proficiency	Human Dimension, Learning How to Learn

6 The learner's reflections

Everything in this section was written by the learner on the platform and is quoted verbatim. Across the record period the learner submitted 46 one-sentence summaries, 26 muddiest points and 3 post comments, and marked 46 weekly posts as liked. Selection rule: for

each course, the longest summary and the longest muddiest point (earliest week on a tie). Length is a transparent proxy for elaboration, not a quality judgement.

BIO261 · Advanced Microbiology Fall 2026–27

Summary · W9 · Microbial ecology in extreme environments and biogeochemical cycling

"Microbial activity in extreme environments dictates global biogeochemical cycling by transforming minerals into bioavailable energy sources for the wider ecosystem."

Muddiest point · W10 · Metagenomics, microbial community profiling, and bioinformatic interpretation

"I find the step of interpreting taxonomic abundance from metagenomic data shaky because I cannot verify if sequence counts represent active life or just inert environmental DNA."

BIO263 · Animal Behavior Fall 2026–27

Summary · W12 · Animal Cognition, Problem Solving, and Learning in Context

"Evidence of cognitive problem solving requires demonstrating that an animal can flexibly adapt its actions to novel challenges rather than just repeating habit."

Muddiest point · W3 · Behavior, Evolution, and Adaptation: Functional Explanations

"The line between proximate triggers and ultimate evolutionary function feels blurry when I analyze complex social behaviors that appear to serve both roles."

BIO267 · Developmental Biology Fall 2026–27

Summary · W5 · Axis Formation and Patterning Gradients

"Positional information is determined by morphogen concentration thresholds that activate distinct downstream transcriptional programs within a cell field."

Muddiest point · W12 · Stem Cells, Regeneration, and Developmental Plasticity

"The step where adult tissue microenvironments override or suppress these latent embryonic pathways is unclear to me given the high potential for error during reprogramming."

BIO275 · Genetics of Human Disease Fall 2026–27

Summary · W5 · Mendelian Disorders and Gene Function in Disease

"Phenotypic severity in Mendelian conditions depends on whether a mutation results in haploinsufficiency or a dominant-negative interference with protein complexes."

Muddiest point · W9 · Cancer Genetics and Somatic Mutation

"The relationship between inherited tumor suppressor mutations and the subsequent acquisition of somatic hits remains tricky for me to explain in a logical sequence."

GEOE117 · Biostatistics Fall 2026–27

Summary · W12 · Advanced Clinical Trials Design and Analysis

"Adaptive trial designs allow for mid-trial adjustments to randomization or sample size based on interim analyses without inflating the overall error rate."

Muddiest point · W15 · Comprehensive Review, Project Support, and Examination Preparation

"Connecting longitudinal models with survival outcomes in a single clinical analysis still feels shaky because I get lost in the different error structures."

About this record

What it is. A summary of this learner's activity on the CoursedUp platform, generated automatically on 13 Oct 2026 from a platform data snapshot dated 13 Oct 2026. Every number is a count over platform records; every quotation is the learner's own text, unedited. No generative AI was used to produce any part of it, and no person reviewed it.

What it is not. It is not a transcript, a diploma supplement or a certificate. It contains no grades or credits, and it does not verify, certify or attest that any skill, competency or credential was attained. Sections 4 and 5 reproduce what course syllabi declare about the *design* of the courses; they say nothing about the learner's mastery. Section 3 reproduces the activities instructors recorded for their weekly posts; attendance is not tracked.

Definitions. *Weeks with a reflection*: course weeks in which the learner submitted a one-sentence summary or a muddiest point (52 of 80); comments and likes are not counted. *Reflections*: the learner's one-sentence summaries and muddiest points added together. *Learning activities*: catalogue activities in which the learner does, makes, discusses, analyses or presents something, or meets outside experts and real settings; course documents, lecture formats, platform tools, grading arrangements and standard exams or quizzes are excluded, by one classification of the platform's activity catalogue applied identically to every record. *Distinct*: counted once however many courses declare it, after normalising spelling (case, hyphens, "&"); no synonyms are merged.

Questions. About the content of a course: its instructor. About this record or the underlying data: CoursedUp support. The learner can request the full list of their submissions at any time.
