LEARNING ACTIVITY RECORD · GENERATED FROM COURSEDUP PLATFORM DATA

TERM REPORT · FALL 2026–27

Learning Analytics for Student

Mateo Alvarez

PROGRAMME	DEPARTMENT	SCHOOL
Mathematics Teaching	Mathematics Teaching	Education
UNIVERSITY	**LEARNER ID**	**REPORTING SCOPE**
Virtual Earth University	98436ad1	Fall 2026–27
RECORD PERIOD	**COURSES IN SCOPE**	**DATA SNAPSHOT**
21 Sep 2026 – 10 Jan 2027	5 courses · 1 term	13 Oct 2026

89
REFLECTIONS
one-sentence summaries and muddiest points written by the learner

65
ACTIVITIES
distinct learning activities in the learner's course weeks

56
SKILLS
distinct skills declared by the course syllabi

18
CREDENTIALS
distinct micro-credential pathways named by the syllabi

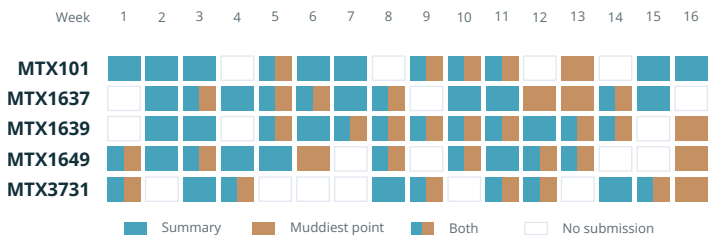

1 Courses enrolled this term

Courses the learner was enrolled in on CoursedUp, grouped by term. **Weeks with a reflection** counts the course weeks in which the learner submitted a one-sentence summary or a muddiest point.

Code	Course	Instructor	Weeks w/ reflection
MTX101	**Introduction to Mathematics Education**	Benjamin Patel	12 / 16
MTX1637	**Introduction to Algebra**	Benjamin Patel	13 / 16
MTX1639	**Learning Theories in Mathematics**	Liam Stephens	13 / 16
MTX1649	**Teaching Geometry**	Olivia Hill	12 / 16
MTX3731	**Introduction to Statistics**	Olivia Hill	10 / 16

2 Weekly reflection map

Each cell is one published course week. A cell is filled when the learner submitted a reflection that week: teal = one-sentence summary, amber = muddiest point, both colours = both. Empty cells are weeks without a submission — silence on the platform, not absence from class. Weeks in which the course published no post are left blank.

3 Activities recorded in the learner's course weeks

On CoursedUp each weekly course post carries the activities the instructor used that week, chosen from the platform's activity catalogue (Basic / Advanced / Innovative is the catalogue's own classification of the activity; T / E / A marks its role as teaching, engagement or assessment). The table lists **learning activities**: things the learner does, makes, discusses, analyses or presents, or meets outside experts and real settings through. Course documents such as the syllabus, lecture formats, platform tools, grading arrangements and standard exams or quizzes are part of the course record too, but are not listed. **Count** is the number of the learner's 80 course weeks in which the instructor recorded that activity. Attendance is not recorded by the platform.

65 distinct learning activities across 149 activity records · the 14 most frequent listed below

Activity	Role	Level	Count
Tutorial Sessions	T/E	Advanced	9
Think-Pair-Share	E/A	Advanced, Innovative	7
Challenge Problems	E/A	Advanced, Innovative	6
Concept Maps	T/E/A	Basic, Advanced	6
Group Exercises	T/E/A	Advanced	6
Peer Feedback	T/E	Advanced	6
Open Discussions	T/E	Advanced	5
Real-World Cases	T/E/A	Basic, Advanced	5
Case Study	T/E/A	Advanced	5
Discussion Forums	T/E/A	Advanced	5
Group Discussions	T/E	Advanced	5
Study Circles	T/E	Advanced	4
Collaborative Study Sessions	T/E	Innovative	4
Debate/Discussion Sessions	T/E/A	Advanced	3

Showing the 14 most frequent learning activities; 51 further learning activities were recorded less often. 36 further recorded items (course documents, lecture formats, tools, grading arrangements, standard exams and quizzes) are not listed.

4 Skills declared in the course syllabi

Each syllabus lists the skills its course targets. This section reproduces those *declarations* across the learner's courses, with the courses that declare each skill. It describes what the courses set out to teach; it does not assess whether a skill was acquired.

56 distinct skills from 56 syllabus entries · 37 hard, 11 soft, 8 meta

A. Technical and domain skills (Hard Skills)

Skill (as declared)	Courses
Equation and Inequality Solving	MTX1637
Function Analysis & Graphing	MTX1637
Spatial Reasoning and Visualization	MTX1649
Cognitive Architecture Analysis	MTX1639
Expression Simplification	MTX1637
Polygon Classification and Transformation	MTX1649
Probability Calculation	MTX3731
Sociocultural Scaffolding	MTX1639
Algebraic Notation & Communication	MTX1637
Coordinate Geometry and Measurement Literacy	MTX1649

27 further hard skills are declared in single courses; ordering: number of courses that declare the skill.

B. Interpersonal, communication and leadership skills (Soft Skills)

Skill (as declared)	Courses
Collaborative Problem Solving	MTX1637
Methodical Reasoning & Justification	MTX1637
Collaborative Dialogue Facilitation	MTX1639
Peer Feedback & Review	MTX1639
Peer Feedback and Collaboration	MTX101
Diagnostic Assessment and Orientation	MTX1649
Growth Mindset Promotion	MTX1639
Classroom Management	MTX101
Conditional Reasoning	MTX3731

2 further soft skills are declared in single courses; ordering: number of courses that declare the skill.

C. Thinking and self-regulation skills (Meta-Skills)

Skill (as declared)	Courses
Critical Reflection and Research Inquiry	MTX101
Critical Interpretation	MTX3731
Metacognitive Reflection & Self-Assessment	MTX1637
Problem-Solving and Heuristic Reasoning	MTX101
Professional Educational Synthesis	MTX1639
Metacognitive Self-Regulation	MTX1639
Problem-Solving Strategies and Scaffolding	MTX1649
Curriculum Design and Microteaching	MTX1649

5 Micro-credential pathways named in the course syllabi

Course syllabi on CoursedUp name the micro-credential pathways their weekly topics are aligned with. The table reproduces those declarations for the learner's courses and shows, for the aligned weeks, how many carry a reflection by the learner. No credential is awarded or verified by this record; whether a pathway leads to a credential is decided by the awarding body, not by the platform.

18 distinct pathways named across 5 courses · the 16 with the most aligned weeks are shown

Pathway (as declared)	Course	Weeks w/ reflection	Depth	Dimensions named
Certified Mathematics Curriculum Innovator	MTX101	2 / 3	Proficiency	Application
Inclusive and Equitable Math Educator	MTX101	1 / 3	Mastery	Human Dimension
Advanced Math Assessment Specialist	MTX101	2 / 2	Proficiency	Integration
Equation Solving & Symbolic Manipulation	MTX1637	5 / 6	Mastery	Application
Functions & Graphical Representation	MTX1637	3 / 3	Proficiency	Integration
Foundational Algebraic Literacy	MTX1637	2 / 3	Proficiency	Foundational Knowledge
Applied Mathematical Modeling	MTX1637	2 / 2	Proficiency	Human Dimension
Foundational Educational Psychology in STEM	MTX1639	2 / 4	Proficiency	Foundational Knowledge
Cognitive Load & Instructional Task Design	MTX1639	3 / 3	Mastery	Integration
Constructivist & Sociocultural Pedagogies	MTX1639	3 / 3	Mastery	Application
Self-Regulated Learning & EdTech Integration	MTX1639	2 / 3	Proficiency	Learning How to Learn
Pedagogical Proof and Curriculum Designer	MTX1649	2 / 3	Mastery	Integration
Spatial Reasoning and Geometric Modeling Specialist	MTX1649	2 / 3	Proficiency	Foundational Knowledge
Inferential Statistics and Modeling	MTX3731	4 / 6	Mastery	Integration
Risk and Probability Analysis	MTX3731	2 / 4	Proficiency	Application
Foundational Data Literacy	MTX3731	2 / 3	Proficiency	Foundational Knowledge

6 The learner's reflections

Everything in this section was written by the learner on the platform and is quoted verbatim. Across the record period the learner submitted 53 one-sentence summaries, 36 muddiest points and 2 post comments, and marked 53 weekly posts as liked. Selection rule: for each course, the longest summary and the longest muddiest point (earliest week on a tie). Length is a transparent proxy for elaboration, not a quality judgement.

MTX101 · Introduction to Mathematics Education Fall 2026–27

Summary · W7 · Instructional Strategies and Pedagogical Approaches for Teaching Mathematics

"Effective pedagogy involves choosing instructional strategies that align with how students actually construct their knowledge during group problem solving."

Muddiest point · W10 · Teaching Fractions, Ratios, Proportions, and Early Algebra in School Mathematics

"My confusion persists regarding the transition from additive to multiplicative comparison, as I struggle to visualize when exactly a child shifts their thinking."

MTX1637 · Introduction to Algebra Fall 2026–27

Summary · W10 · Rational expressions and algebraic fractions

"Rational expressions require careful identification of domain restrictions to ensure that symbolic cancellation does not introduce mathematically invalid results."

Muddiest point · W12 · Systems of linear equations and algebraic applications

"I find it difficult to determine the most efficient method between substitution and elimination when the system coefficients are fractions rather than integers."

MTX1639 · Learning Theories in Mathematics Fall 2026–27

Summary · W11 · Inclusive mathematics teaching, differences among learners, and differentiation

"Inclusive teaching requires designing tasks with multiple entry points so that every student can access complex mathematics regardless of their background."

Muddiest point · W14 · Peer instruction, collaborative learning, and discussion-based mathematics pedagogy

"My difficulty lies in knowing the specific moment to intervene during a group disagreement because I worry about accidentally silencing valid student reasoning."

MTX1649 · Teaching Geometry Fall 2026–27

Summary · W13 · Technology in Geometry Teaching: Dynamic Geometry, Visualization, and Digital Resources

"Dynamic geometry software allows students to observe invariant properties under transformation, which makes abstract concepts concrete through interactive exploration."

Muddiest point · W8 · Mid-Semester Review and Application: Integration of Proof, Transformation, and Coordinate Reasoning

"The relationship between formal logical notation and the practical pedagogical judgment needed for teaching primary students felt shaky during my revision as I struggled to bridge the two."

MTX3731 · Introduction to Statistics Fall 2026–27

Summary · W8 · Random variables, expected value, and the normal distribution

"Using the normal distribution to model continuous outcomes helps me visualize how a pupil might grasp the density of data points around a central mean."

Muddiest point · W1 · Course orientation, the role of statistics in mathematics teaching, and foundational statistical thinking

"Distinguishing between pure deterministic math and the variable nature of statistics feels difficult when I consider how to teach pupils to embrace uncertainty."

About this record

What it is. A summary of this learner's activity on the CoursedUp platform, generated automatically on 13 Oct 2026 from a platform data snapshot dated 13 Oct 2026. Every number is a count over platform records; every quotation is the learner's own text, unedited. No generative AI was used to produce any part of it, and no person reviewed it.

What it is not. It is not a transcript, a diploma supplement or a certificate. It contains no grades or credits, and it does not verify, certify or attest that any skill, competency or credential was attained. Sections 4 and 5 reproduce what course syllabi declare about the *design* of the courses; they say nothing about the learner's mastery. Section 3 reproduces the activities instructors recorded for their weekly posts; attendance is not tracked.

Definitions. *Weeks with a reflection*: course weeks in which the learner submitted a one-sentence summary or a muddiest point (60 of 80); comments and likes are not counted. *Reflections*: the learner's one-sentence summaries and muddiest points added together. *Learning activities*: catalogue activities in which the learner does, makes, discusses, analyses or presents something, or meets outside experts and real settings; course documents, lecture formats, platform tools, grading arrangements and standard exams or quizzes are excluded, by one classification of the platform's activity catalogue applied identically to every record. *Distinct*: counted once however many courses declare it, after normalising spelling (case, hyphens, "&"); no synonyms are merged.

Questions. About the content of a course: its instructor. About this record or the underlying data: CoursedUp support. The learner can request the full list of their submissions at any time.
