TERM REPORT · FALL 2026-27

Course Analytics

MTX101 · Introduction to Mathematics Education

INSTRUCTOR **Benjamin Patel**	DEPARTMENT **Mathematics Teaching**	SCHOOL **Education**
UNIVERSITY **Virtual Earth University**	TERM **Fall 2026-27**	COURSE TYPE **Undergraduate · Compulsory · Theoretical**
COURSE PERIOD **21 Sep 2026 – 10 Jan 2027**	WEEKLY POSTS **16 of 16 weeks**	REPORTING POINT **11 Jan 2027 (end of term)**

61
ACTIVITY USES
catalogue activities recorded in the weekly posts · 3.81 per week

50
DISTINCT ACTIVITIES
different activities from the platform catalogue · 3.13 per week

100%
POST FILL RATE
weeks with a post out of the weeks the course has run

126
FEEDBACK RECEIVED
comments, one-sentence summaries and muddiest points

1 Network and participation

Who the course reaches on CoursedUp. **Peers** are instructors who joined the course as colleagues, **students** are enrolled learners, **followers** subscribe to its feed.

Peers	11	8 of them commented on the course's posts (39 comments)
Students	5	5 of them submitted at least one one-sentence summary or muddiest point
Followers	15	subscribe to the course feed

2 Week by week

Each weekly post: its topic, the catalogue activities the instructor recorded for it (small grey tags: dimension and level, T = teaching, E = engagement, A = assessment) and what came back. **C** comments (+ replies), **S** one-sentence summaries, **M** muddiest points, **L** likes, **F** attached files.

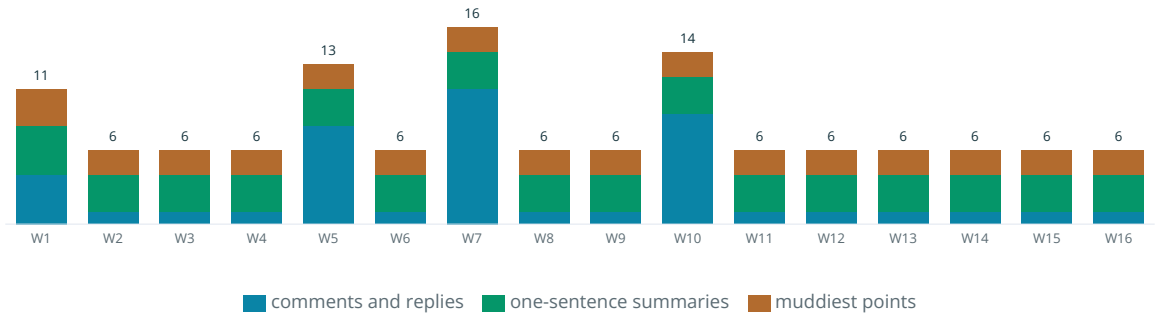

W	Topic and recorded activities	C	S	M	L	F
1	**Introduction to Mathematics Education: Scope, Goals, and Current Landscape** Course Objectives / Learning Outcomes T basic; Discussion Forums T adv. · E adv. · A adv.; Ice Breakers T adv. · E adv.; Pre-Course Self-Assessment T adv. · E adv. · A innov.; Syllabus T basic	4	4	3	0	2
2	**Historical and Philosophical Foundations of Mathematics Education** Article Analysis T adv. · E basic · A adv.; Group Discussions T adv. · E adv.; Reading List T basic; Video Lectures T adv.	1	3	2	0	2
3	**Major Learning Theories Applied to Mathematics (e.g., Piaget, Vygotsky, Constructivism)** Case Study T adv. · E adv. · A adv.; Face to Face Lectures T basic; Quizzes A basic; Role Playing T adv. · E adv. · A adv.	1	3	2	0	3
4	**Curriculum Development in Mathematics Education: Principles and Practices** Collaborative Teaching Assignment T innov. · E innov. · A innov.; Group Exercises T adv. · E adv. · A adv.	1	3	2	0	1
5	**Technology Integration in Mathematics Education: Digital Tools, Software, and Online Resources** Assignments / Homework A basic; Discussion Forums T adv. · E adv. · A adv.; Quizzes A basic; Tool Discovery Assignment T innov. · E innov. · A innov.; Video Lectures T adv.; Workshops T basic · E basic · A basic	6 +2	3	2	0	3
6	**Assessment for Learning in Mathematics: Formative and Summative Approaches** Assignments / Homework A basic; Peer Feedback T adv. · E adv.; Practice Exams T adv. · E basic; Rubrics T adv. · E adv. · A innov.	1	3	2	0	3
7	**Instructional Strategies and Pedagogical Approaches for Teaching Mathematics** Assignments / Homework A basic; Face to Face Lectures T basic; Group Discussions T adv. · E adv.; One Minute Paper E adv. · A adv.; Peer Instruction T innov. · E innov.; Think-Pair-Share E innov. · A adv.	8 +3	3	2	0	4

16	**Final Exam** Final Exam A basic; Practice Exams T adv. · E basic; Study Circles T adv. · E adv.	1	3	2	0	1

3 Feedback over the term

What peers and students sent back. The course's totals are the platform's own counts (replies are included in comments). Beside them, the *average course* of Fall 2026-27 in the School, the University and the Discipline: every course of the term with at least one published post counts. The chart below spreads this course's totals over the weeks.

Metric	This course	School avg. 368 courses	University avg. 1,657 courses	Discipline avg. 85 courses
Comments	**44**	97.7	91.5	98.9
One-sentence summaries	**49**	27.9	26.1	27.9
Muddiest points	**33**	17.6	16.8	18.0
Skills	**0**	0.0	0.0	0.0
Likes	**0**	0.0	0.0	0.0

4 Benchmarks: courses in Fall 2026-27

The platform compares the course with the *single most active course* of the same term in its School, its University and its Discipline (shown on the platform as Department, University and Discipline). The grey track runs to that highest value, the dark tick marks the median course of the group, and rank counts the courses with a higher value (ties share a rank).

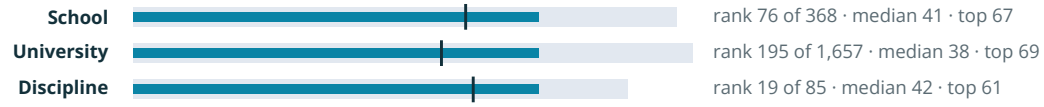

this record range up to the highest value in the group | group median

ACTIVITY USES

School	rank 64 of 368 · median 48 · top 78
University	rank 210 of 1,657 · median 47 · top 78
Discipline	rank 16 of 85 · median 47 · top 77

DISTINCT ACTIVITIES

School	rank 76 of 368 · median 41 · top 67
University	rank 195 of 1,657 · median 38 · top 69
Discipline	rank 19 of 85 · median 42 · top 61

Post fill rate of the median course: School 100% · University 100% · Discipline 100%. This course: 100%.

5 Teaching, engagement and assessment

Each catalogue activity belongs to one or more of three dimensions — Teaching, Engagement and Assessment. A use counts in every dimension the activity belongs to, so the three lists overlap. Figures are uses across the term's posts.

Teaching	43 uses	Engagement	41 uses	Assessment	35 uses
Practice Exams	2	Practice Exams	2	Quizzes	3
Group Discussions	2	Group Discussions	2	Assignments / Homework	3
Discussion Forums	2	Discussion Forums	2	Discussion Forums	2
Case Study	2	Case Study	2	Case Study	2
Video Lectures	2	Challenge Problems	2	Challenge Problems	2
Face to Face Lectures	2	Peer Feedback	1	Midterm Exam	1
Peer Feedback	1	Peer Instruction	1	Tool Discovery Assignment	1
Peer Instruction	1	Tool Discovery Assignment	1	Research Report	1
Tool Discovery Assignment	1	Research Report	1	Workshops	1
Research Report	1	Workshops	1	One Minute Paper	1
Workshops	1	One Minute Paper	1	Individual Projects	1
Ice Breakers	1	Individual Projects	1	Rubrics	1
Invited Speakers	1	Ice Breakers	1	Pre-Course Self-Assessment	1
Experiential Learning	1	Invited Speakers	1	Final Exam	1
+ 23 more activities		+ 22 more activities		+ 14 more activities	

6 Activity complexity

The same uses split by dimension and level (Basic, Advanced, Innovative), as the platform's complexity panel shows them. Small grey figures: the highest value any single course of the term reached in the School. Cell shading follows this course's own counts.

	Basic	Advanced	Innovative	Total
Teaching	9 (School top 21)	28 (School top 40)	6 (School top 11)	43
Engagement	7 (School top 16)	29 (School top 50)	5 (School top 16)	41
Assessment	11 (School top 19)	17 (School top 25)	7 (School top 14)	35
Total	**27**	**74**	**18**	**119**

About this report

What it is. A summary of this course's activity on CoursedUp at the reporting point (the end of the term). The headline figures — network, activity uses, distinct activities, post fill rate, the dimension and complexity counts and the feedback totals — are the output of the platform's own course analytics function, unchanged. Week-by-week detail, participation, medians and ranks come from read-only queries over the same records. Every number is a count over platform records; no generative AI was used to produce any part of it.

What it is not. It is not a teaching evaluation or a satisfaction survey. The counts describe what was recorded on the platform, not the quality of teaching or learning. Benchmarks show a position among the platform's records for the same term, not a standard to meet.

Definitions. *Activity use*: one catalogue activity recorded for one weekly post; the same activity in two weeks counts twice. *Distinct activities*: counted once however often used. *Per week*: divided by the latest week reached. *Post fill rate*: weeks with a post divided by the weeks the course has run, shown capped at 100%. *School*: the faculty of the course owner; the platform labels this comparison Department. Only published posts of courses whose owners are active count.

Questions. About the course: its instructor. About this report or the underlying data: CoursedUp support.
